

**Key**

- Site boundary
- Turbine location
- Crane pad
- Crane pad assembly
- Crane pad storage
- Temporary construction compound
- Track
- Main river
- Ordinary watercourse
- Water Environment study area

The shading on the map shows the worst-case scenario for the area that could be flooded if a large reservoir were to fail and release the water it holds. A large reservoir is one that holds over 10,000 cubic metres of water.
